DANGER SPOTS IN THE HEAD:

case in the nostrils and throat require attention at once.

1. The Middle Ear—A running ear collects germs of tuberculosis and may, pass them down the throat to the lungs. A discharging ear may break into the brain. Why run the risk? A discharging ear can be corrected.
2. Diseased Tonsils—Germs of many diseases collect in swollen tonsils. The germs that cause rheumatism live in such tonsils. Many pharyngitis sufferers after taking medicine for years without relief, who has had his tonsils cared for, recover from rheumatism.
3. The Larynx—This structure is the gateway to the windpipe and lungs. It contains the vocal chords and the organ of speech. Diseases of the larynx make the voice hoarse or husky. A hoarse voice may mean laryngitis, tuberculosis, tumors or cancer. A sore throat and a husky voice need immediate diagnosis.

1. Nostrils. 2. Adenoids. 3. The Middle Ear. 4. The Tonsils. 5. The Larynx.

Symptoms of Catarrh and Catarrhal Deafness:

Is your throat raw?
Do you sneeze often?
Are your eyes watery?
Do you take cold easily?
Is your nose stopped up?
Do you have to spit often?
Do crusts form in your nose?
Are you worse in damp weather?
Do you hear noises in your ears?
Hear better some days than others?

Does change of weather affect ears any?
Are you losing your sense of smell?
Do you have a dull feeling in your head?
Do you have to clear your throat on rising?
Do you have a discharge from the nose

FREE EXAMINATION—Why don't you have Dr. Kassmir make a thorough examination of your case? With his almost unlimited modern equipment and wide experience in examination work, he can doubtless quickly tell you what your trouble really is. Examination, diagnosis and advice is FREE.
