A TRIBUTE TO THE BRAVE The Corner-Stone of the Monument to Indiana Soldiers and Sailors Laid at Indianapolis - President Harrison As-

sists at the Ceremony. Indianapolis, Ind., Aug. 28.-The cornerstone of the Indiana soldiers' and sailors' monument was laid Thursday afternoon with imposing ceremonies in the presence of the President of the United States, many men of prominence and thousands of veteran soldiers and sailors. If the monument commissioners themselves had had the privilege of selecting the weather they wished they could not have done better than did nature. It was all that could

All day Wednesday and the early morning trains yesterday brought thousands of strangers to the city, and by noon there were not less than 40,000 on the streets. The city was assume with color in honor of the occasion. With the scaffold of the monument in Circle park as the hub, the streets radiated in every direction like the spokes of a mighty wheel, and a glance up any of them revealed to the eye nothing save the red, white and

blue, the buildings being almost hidden by the decorations. But the central point of interes was the big scaffold of the monument itself, looming up in the center of the city to the distance of 104 feet. In every direction from the top ropes stretched away to neighboring buildings or trees, and each was strung with a glowing rosary of pennons of countless sizes and innumerable shapes, from garrison flags thirty feet long to tiny emblems of freedom hardly large enough to crowd three colors into. At the corners of the scaffold are 2,000-candle power electric lights, which will make the beauty of the scene as plain by night as day.

The exercises of the day began at 2 o'clock, when the parade formed and began its march through the principal streets. It was made up of various posts of the Grand Army of the Republic throughout the State, and the State militia and local civil organizations. It is estimated that 8,000 men were in line. In the second division, commanded by General Dick Ruckle, immediately in the rear of the military, was the escort of President Harrison, 100 strong, all mounted, and in command of Colonel Oran Perry. Between the sections of the escort rode the President in a flag-draped carriage, Mayor Denny and Governor o arged Mr. Balfour with giving the I ish Hovey riding with him. The President crowd by repeatedly lifting his hat. Attorney-General Miller, Secretary Rusk and Private Secretary Halford were in the next carriage. In performthe ritual rites Commander Travis was assisted by the officers of the department and by the presidents of the Sons of Veterans and the Woman's Relief Corps. When the stone had been placed in position the national flag was raised and the "Star Spangled Banner" sung by Mrs. Zelda Seguin-Wallace. The ceremony ended

with the firing of a salute. The following articles were deposited in the corner-stone: Terrell's reports Grand Army of the Republic reports badges, ritual and roster: Women's Relief corps reports, badges, ritual and of Veterans reports, Sons roster; badges, ritual and roster; monu-mental reports and documents since January 1; photographs and plans for the monument, Loyal Legion reports, first memorial service of the Grand Army of the Republic, reports of original Grand Army the Republic, minutes of Legislature which passed Monument bill, and the city

paners. Following this Governor Hovey, as prosiding officer of the occasion, made a brief address, and he was followed by General Manson, of Crawfordsville, and General John Coburn, of Indianapolis. At the conclusion of the latter's address President Hurrison was introduced to the assemblage, and after the applause which greeted him had ended he spoke as fol lows:

THE MONUMENT The scheme for a monument for the soldiers and sailors of Indiana was originated by Mr. George Langsdale, editor of the Green Castle Banner. In 1875, at a meeting of the State Editorial Association in Indianapolis, he presented his plan, which was heart ily indorsed, and resulted in a reunion in Octover of the same year of all the surviving soldiers and sailors in the State. Work was failly hearn the Lodgen State. fairly begun, the Indiana Soldiers' and Sailor's Monument Association was organized. work of collecting funds was commenced, but the panic of 1876 put a stop to this, only \$1,000 being in the treasury. In 1883 the scheme was again taken up, and the association was incorporated, with Mr. Langsdale as president The association, after meeting with many reverses, secured the passage of a bill appropriating \$200,000 for the erection of the onument. This, with the \$22,000 contributed by the Grand Army of the Republic, enabled vertisements for designs were made, and on January 27. 1888, that of Bruno Schmitz, of Berlin, was accepted. The main central foundations were put in during the summer of 1888 at

a cost of \$81.688.11. In December, 1888, the contract for the erection of the main shaft and appendices of the monument was let. The contractors expect to flaish the work of the first shaft or pedestal by November, and by the same month next

contract completed and the monument ready for ornamentation. The monument will be built of light gray limestone. When completed it will be 268 feet high. The diameter of the ground which t will cover is 192 feet. On the north and south sides will be wide stone steps seventy feet in ength, leading to the platform of the terrace, from which the interior will be reached by bronze doors. Above these doors large tablets will bear inscriptions commemorative of the part borne in the war by the different counties, and above the tablets is the dedication: "To Indiana's Silent Victors, by a Grateful State." It is the design of Bruno schmitz, of Berlin, the designer Victor Emanuel monument in Italy, and the winner of forty out of fifty-eight similar com petitions in which he has entered. Its cost

will be about \$250,000. DEATH WAS A GUEST.

An Ill-Tempered Brute. Ernest Hoppe, a railroad laborer living at Minnesota City, put a heavy log-chain about the neck of his twelve-year-old boy one morning recently and locked it so tight that the boy was nearly checked. Hoppe then calmly placed the key in his pocket and went away about his work. Several hours after the suffering boy's little brother called the neighbors and they carried the boy to a blacksmith shop, where the chain was removed. When Hoppe came home the neighbors put the chain about his neck and affixed him to a post near the residence. The boy's offense was letting the sheep out of a pen where they had been confined
