Candidate of Organized Labor Is an Easy Winner in the Contest for Royal Honors---Misses Buckley, Goven and Lurtle Winners of Consolation Prizes.

Miss Helen A. Marks is queen of the carnival.

Organized labor placed her in the coveted position last night and she will be duly crowned Wednesday. Two thousand people heard the announcement and it was received with

lusty cheers. One of the liveliest contests in the history of the city came to a close last night at 11 o'clock when the ballot boxes were opened and their contents dumped in front of the committee selected to count the contents.

In the presence of representative selected by each of the candidates the vote cast up to yesterday was counted quarters. Not a ballot box was opened and promptly at 9 o'clock they were all conveyed to the Grand opera house, where they were ranged in front of the stage

The queens occupied boxes and their friends the lower floor and balcony, while a programme of vaudeville, including a steriopticon exhibition, was presented for their entertainment.

In order to allow quick voting the committee announced that money enclosed in an envelope and marked with the candidate's name intended would be received in lieu of votes, but it was not until nearly 10:30 o'clock that the envelopes came in in abundance. By

Organized labor was duly jubilant ver their candidate's victory last night and made the opera house ring with their cheers when the result was announced. Their campaign in behalf of Miss Marks was conducted by Wil-

Miss Buckley's campaign, confined as it was to the employes of the West Publishing house, was a spirited one and many believed her a winner up to the last moment. There were nine contestants and

eight of them will act as maids of honor to the queen when she is crown ed Wednesday night.

An amusing feature of the wedding was the fact that the groom prevailed upon the clerk of courts to issue him a marriage license on credit, the applicant for matrimonial honors promising to pay the dollar when the government made another per capita interest payment to himself and other members of his tribe.

WOULD ENSLAVE THE "IRISH OF HUNGARY"

American Catholic Priests Ap peal to President Against Alleged Plotters.

WASHINGTON, D. C., July 25. -"Hungary Exposed," is the title of a sensational pamphlet incorporated in an appeal to the president, the secretary of state, Cardinal Gibbons and the archbishops and bishops of the United States, from the Catholic priess having charge of Hungarian congregations throughout this country. On the flyleaf appears this sentence:

"Secret state documents, revealing the plotting of that government in the United States. American Slavoks and Ruthenians, 'the Irish of Hungary,' to be the victims."

The "secret 'ocument" proves to be a ministerial ommunication by the Hungal an minister of religion and instruction to the cardinal prince primate, arc. bishop of Estergon, in reference to the Hungarians who have emigrated to the United States. It shows the plan of the Hungarian government to retain its hold upon the Slavoks and Ruthenians living in the United States. The document, which is signed by M. Komlossys, an officer of the ministerial bureau, declares that the Hungarians are emigrating in increasing numbers to the United States and that their patriotic spirit and religious faith is rapidly disappearing.

M. Komlossys then defines the ac-

tion resolved upon by the Hungarian government. This consists in the send-ing of zealous and patriotic Hungarian priests to take charge of the American missions, the conclusion of a concordat of principles between the congregation de propaganda fide and the Hungarian government toward the appointment of an apostolic delegate at Washington and likewise at the ex-Washington, and likewise, at the expense of the Hungarian government, to keep the Ruthenians and Slavoks in the United States under surveillance in the interest of their guidance.

The bill was handed over and the stranger produced an envelope and sealed the bill up in it. When through he passed over to Mr. Sturre four sil-

Suiting the action, he picked up the silver and handed the grocer the envelope with the supposed \$5 bill and walked out. Mr. Sturre was suspicious, followed him and called to him to stop. Becklet failed to heed the calls and broke into a run. Here the grocer tore open the envelope and ound, as he suspected, nothing.

Seizing a bycicle, he gave chase coming up with the fellow at Sixth avenue south, where he took refuge in deep wooded ravine. The neighborhood was aroused and the place searched. Becklet came out soon afterward and took refuge in a barn, telling a little girl to say nothing of his being there.
