Lead Pencil Breaks Rib. At Hopkinsville, Ky, Prof. H. Chy Smith, principal of the girls' department of South Kentucky college is suffering from a fractured rib, as a result of an unusual accident. While Prof. Smith was sitting in an armchair a letter he was holding fell to the floor. He leaned over to pick up the letter and the arm of the chair pressed a lead pencil in his pocket against one of his ribs with sufficient force to break the

> # General Kuroki passed through Fargo last night enroute to the Jamestown exposition. His trip across the continent will give him a better idea of the United States, . He will know more of its resources and power and should his countrymen ever decide that June 24-25. they would like to lick America he will be in a position to suggest to them the difficulty of the task. Personally the famous general is said to be genial and affable and Americans will wish him a pleasant time while he is in this country.

Compared to the conditions in other sections of the country North Dakota is fortunate. Snows, rains and of the United States. In North Dakota the weather is not as warm as is usual at this season but there is plenty of "misery" elsewhere and that should make the people less disposed to protest. The farmers are going ahead years of agitation by the irrigation the work. Even in the most northerly section of the state seeding is well advanced and advices are that there will be little if any reduction in the congressional delegation is composed wheat acreage. North Dakota is dis-"tenderfoot" variety have any doubt on that question. The soil is in magnifiworks or have lost the novel reading weil advanced everything is favorable for a rapid growth of the crops when the warmer weather comes which it is bound to do at an early date. and Lief Erickson.
