CONVENTIONS

Republican Conventions for State and County.

An official call has been received here for the Republican state convention, which will be held at St. Paul, June 21. There will be 1,069 delegates apportioned about the state on a basis of a delegate for every 220 votes cast for Republican electors in 1908.

St. Louis county will have 43 delegates. These will be named at a county Republican convention which will be held at Hibbing, Friday, June 17, which has been called by the Republican county committee.

At the St. Paul convention, four candidates for judge of the supreme court are to be nominated also candidates for governor, lieutenant governor, secretary of state, auditor, treasurer, attorney general, clerk of supreme court and one member of the railroad and warehouse commission.

The only St. Louis county man who will seek the favor of the convention is W. J. Smith, of Eveleth, who asks that he be nominated for treasurer. Politicians who are in close touch with conditions say that it now looks as if he will win.

The same persons are confident that Governor Eberhart will be re-nominated with practically no opposition.

INTERESTED IN DOOR KNOBS

English Visitor to New York Admits the Possession of a Rather Peculiar Fad.

A New Yorker and his wife were showing an English cousin the sights of the town recently. As they crossed Washington square, the Englishman noticed the old houses on the north side facing the park. He wanted a close view of them.

Suddenly he ran up the front steps of a house and bent over at the door. When he reached the sidewalk his relatives asked him what he did that for.

"Oh, for nothing in particular," he replied slightly embarrassed. But when he did it a second time they insisted upon knowing. They were afraid a policeman might see him and cause trouble.

"Well," said the Englishman, "if you must know, I was looking at the doorknobs. It may seem funny to you, but I have a peculiar hobby for that sort of thing. During my trip on the continent I have studied the designs of knobs in the various countries and have got a most interesting collection of them."

"It is not at all uncommon in England to see collections of doorknobs. Some old families put their coat of arms on them. Others place weird figures. Your skill in America has not been expended on doorknobs yet, I take it. Just observe them some time; you will find them exceedingly entertaining."

HEAT FOR INSOMNIA.

A warm bed and hot water bottle, or, failing that, a hot iron, are excellent remedies for insomnia in cold weather. The bed should be warmed with the hot water bottle before one gets into it and if there is a radiator in the room the pillows should be placed upon it for a few minutes. Otherwise they should be warmed with the bottle. It is wonderfully soothing to get into a warm bed on a cold night—much more so than warming the bed with one's body—and may make all the difference between peaceful slumbers and wakefulness. Then if one wakes in the dead watch and middle of the night there is a wonderful sense of companionship in the warm bottle at one's feet and under this influence one may soon drop off to sleep again. The practice in summer should be just the reverse. Then coolness will induce sleep just as warmth does in winter.

COULDN'T OTHERWISE.

Photographer—Now, look please, ant, please.
Henpeck—Put my wife in the next room and I will.

TO CLEAN A CLOCK.

The following method of cleaning a clock is simple and inexpensive: Take a bit of ordinary cotton wool about the size of an egg, pour about a teaspoonful of coal oil on the wool and after placing it inside the clock wait three or four days. If the clock is in working order so much the better. Your clock will, if going, strike as of old and at the end of the specified time, if the wool is examined, it will be found black with dust. The explanation is that the fumes of the oil loosen the particles of dust and they fall, leaving the clock quite clean.

THE RESULT.

"I gave that new reporter directions to write a story on the possibilities of profanity in a banana peel."
"Well, what did he do with the banana peel story?"
"Fell down on it."

NERVOUS.

"I get so nervous when I go to a dentist I don't know."
"So do I. I never know whether he's going to be willing to stand me off or not."

A TEMPERANCE BEER

The Commendable Achievement of a Duluth Brewery.

FOR centuries, beer has been a standard beverage with the best classes of all civilized nations. In this country particularly it has been favored by many of our greatest men including William Penn, Samuel Adams, George Washington, Thomas Jefferson, James Madison and thousands who in later years have distinguished themselves. For more than twenty-five years it has been the aim of the Fitzer Brewing Co. to create a beer containing all the virtues of the old time brew, and at the same time decrease the percentage of alcohol contained. The fact that Fitzer's Beer contains only 8 1/2 percent alcohol, a smaller quantity than is contained in most patent medicines and just enough to aid digestion, is proof of this company's successful efforts. Thousands drink it in their homes and find in its tonic and food qualities a really beneficial beverage—a food and medicine combined. To the nervous and weak or to those whose tissues have been wasted through sickness it affords the proper elements to build up and strengthen the system as well as give delicious refreshment. Try it in your home.
