One of the most popular events of the week will be the dancing party given on next Friday evening, Jan. 12, by the El Zagal patrol. Many of the young people are looking forward to the event with much pleasure and this will be one of the most delightful of the after-holiday functions.

Word has been received from Dr. and Mrs. Geo. A. Newhall telling of their trip to Cuba. They speak of the weather as ideal and talk of picking fruit and doing many other things which to North Dakotans seem almost unreal at this time. Dr. and Mrs. Newhall expect to return to Fargo sometime this month.

The Roycroft Dancing club gave one of their delightful parties last evening in the Knights of Columbus hall. The Christmas decorations were used and the host of the evening was W. P. Porterfield. Miss Lillian Johnson was a clever hostess yesterday afternoon when she entertained about twelve of her friends at the home of her sister, Mrs. Geo. Stevens, on Fourth street south. A jolly afternoon was spent in chat and story telling over sewing, and after the needlework had been laid aside a dainty luncheon was served. The dining room was attractive with a color scheme of pink and green which prevailed throughout the menu, the ice being tempting confections in pink roses. The favors were pink and green and the table was attractively decorated in the same colors.

The Fortnightly club held their annual meeting yesterday afternoon for the election of officers. Prof. A. D. Weeks of the A. C. gave an interesting talk on The Yachting and Moving Pictures. Recently there has been great deal of sentiment both for and against this popular form of entertainment and Professor Weeks brought out many good features that were decidedly beneficial and others that were not. He stated that through the moving pictures much information might be imparted that could not be realized in any other way, although there was a doubt as to the advisability of object lessons entirely. The old-fashioned way of acquiring knowledge through research and hard study is still the best way, although the picture lessons are highly beneficial. The speaker advocated the appointment of committees from the women's clubs to confer with the school board to establish a supplement to the modern system of school training in the form of the moving pictures. Professor Abbott of the state university has suggested that a set of films be purchased and sent from one school to the other much as the traveling libraries.

A discussion followed Professor Week's talk, in which the ladies talked over the material possible for these pictures. There seems to be a scarcity of good subjects. Mrs. Whiting was next on the programme and took up the discussion of Other Forums of Cheer. Amusement, enumerating the many devices in the larger cities and in many smaller ones for attracting the young people. She spoke of the dancing auditoriums and the music schools, where for a small fee the young people are both instructed and amused. After the programme had been concluded the election of officers took place as follows: President—Mrs. Mattie M. Davis; First Vice President—Mrs. R. E. Welbie; Second Vice President—Miss Simmons; Recording Secretary—Mrs. W. F. Sudro; Corresponding Secretary—Miss Blanch True; Treasurer—Mrs. W. E. Bell.

This poke is a combination of both, and its quaint shape is most becoming to the youthful face.

Concerning Gas and Electric Bills

It has been well said that collections are the roof of every business structure.

No matter how firm the foundation or enduring the walls, a poor roof means loss, damage and ruin.

When we ask customers to pay their gas and electric bills by the 10th day of the month, we do so simply as a matter of good business policy.

The price and quality of gas and electric service are regulated by its cost.

The cost of producing service is lessened by prompt payment of our bills for fuel, supplies, material and apparatus of various kinds, and the many other items entering into the cost of operation.

In order to transact business on the most economical basis prompt collections are a necessity in the electric and gas business.

May we count on your co-operation. We make it worth your while by offering a discount of 10%.
