## To Absorb Freckles and Other Blemishes

Every spring I receive many letters from girls seeking some reliable recipe for removing freckles. Last year I advised many to try mercolized wax. Such favorable results were reported that this season I have recommended nothing else for the purpose. The wax seems to possess unusual properties which completely absorb every freckle, with no harmful effect. The complexion improves wonderfully becoming as soft as a rose petal, and as delicately tinted.

Get an ounce of mercolized wax at any druggist, spread a thin layer of it over the entire face every night for awhile, washing this off in the morning. For rough, red skin, sallowness, blackheads, pimples and all cutaneous blemishes, this treatment is superior to any that has ever come under my observation.

Springtime also brings wrinkles to many sensitive skins that are much exposed to winds and changing temperatures. Pour a half pint witch hazel into a basin, then an ounce of powdered saxolite, which quickly dissolves. Bathe the face in this; the effect on a wrinkled skin is remarkable. —Marie Demarest in Ladies' Favorite Magazine.
