

FISHING TUG L. GOLDISH HAS SUCCESSFUL TRIP

The L. Goldish, owned by the Lake Superior Fish Co., 208 East First street, arrived yesterday from the north shores with a load of fresh fish. The boat is new and this was her first fishing trip. L. Goldish, manager of the Lake Superior Fish Co., is pleased with the maiden cruise of the freighter and said that it was more successful than he expected.

The L. Goldish has a capacity of 50 tons and has a 55-horsepower engine, which is a Kahlenberg and cost \$1,600. The boat will make the cruise around the north shores about twice a week, as the owners, who are in the retail and wholesale fish business, plan to supply Duluth with strictly fresh fish.
