

THE L. GOLDISH ARRIVES FROM NORTH SHORE

The freighter L. Goldish, owned by the Lake Superior Fish company, arrived yesterday morning from the north shores with a boat load of fresh fish. This is the second trip for the freighter which proved very successful, as also did the first.

The boat cruised the north shores for about three days and brought back 18,000 pounds of herring and 400 packages of fresh salt fish.

The L. Goldish will make these trips regular each week, allowing the public an opportunity to obtain fresh fish daily.
