

ABBY'S PHARMACY, THE SIDE STREET DRUGSTORE

has successful year. Will celebrate its first anniversary soon. The store is located on the northeast corner of Fifth street and Ogden avenue and is equipped with all modern up-to-date fixtures, including a very neat and sanitary soda fountain. The store is well lighted and gives a metropolitan appearance to this corner.

A. B. Averbook, proprietor, is the youngest examined druggist in the city. He is a graduate of the Superior schools (Carpenter school and Superior high school). He learned the drug business with the late F. X. Niehoff of this city. The proprietor is proud of his little drug store and makes friends with all patrons. He has faith in Superior and in Fifth street as a good business street. Both phones, 939, at your service, with two boys delivering on bicycles to all parts of the city. As he resides up over the store, in case of emergency can be called at night. Phone 939.

Under very small operating expenses, including rent at a dollar a day, he has advantages over other locations and is the most reasonable druggist in the city.

All prescriptions are filled by A. B. Averbook and exactly as the doctor directs; no substitution. A trial will convince. Mail orders filled the same day as received.
