WOMAN ASKS \$5,000 DAMAGES FROM CITY

Mayor Gleason of Eveleth Declares He Will Enforce Health Ordinances Rigidly.

(Range Bureau of the News Tribune.)

EVELETH, April 21.—A claim for damages amounting to \$5,000 was presented to the council at its meeting this evening by Mrs. Feluna Kauppinen who declares she fell on a slippery sidewalk and injured her wrist and arm, and received various other internal hurts.

Frank Weyenberg was appointed health officer and Mayor Gleason in making the appointment stated it was his intention to see the city promptly cleaned up.

"I will take drastic measures, if necessary," said the mayor, "to enforce the health ordinances as regards the cleaning up of back yards and lots."

The proposed annexation of the Fayal and Spruce locations was discussed at the meeting as residents from both had made application to be taken into the city in order to secure better roads and water supply.

A representative of the Burns-McDonald company of Kansas City addressed the council concerning the proposed appraisal of the electric light plant in the city, which the city may decide to take over. A special meeting to discuss the matter more fully has been called for tomorrow afternoon.

The roads leading from the city to the pumping station are in such bad condition that bids had to be called for, to get two 16-ton boilers hauled out to the pumping station. Two bids were received, one being \$890 and the other \$826. Both were turned down by the council which decided they were too high even in spite of the terrible condition of the roads at the present time.
