OBITUARY

Richmond Standard (5): The news of the death of Otto M. Schwankl came over the wire Wednesday as a shock barbed with pain and sorrow. When this paper came last to you the deceased was taken to St. Joseph hospital at St. Paul where he was placed under the care of specialists and hopes and wishes for a speedy recovery accompanied him from every side. But, God in His wisdom had decreed otherwise and today all that was mortal of little Otto is at rest in our silent city.

He died at 12 o'clock Wednesday noon at St. Joseph's hospital, in St. Paul, and the remains were shipped to this village Thursday morning.

The little boy had been suffering for the past two weeks with a disease of the glands, properly called Cavernous Sinus Thrombosis, which caused his death.

Deceased was born on February 24, 1903. Thus, over a happy home the shadow of a little grave has fallen; and, as mother has said, it is wonderful how long a shadow a little grave can throw.

The life of Otto was so precious, so fraught with blessings to his parents that he seemed a flower of paradise permitted to bloom for a brief season by their side, then recalled to its nature skies, leaving the earth road for them lonely and dark indeed.

He is survived by his parents, Mr. and Mrs. Joseph Schwankl, three brothers, Wilfred, Edmund, Elmer and one sister Hildegard.

Remington Typewriter Company

Official Distributors

A fitting climax to the opening of the Panama Canal will come with the great Exposition at San Francisco. The plans are complete. The beautiful *de luxe* Booklet of the Exposition is now ready.

A big question confronted the Exposition authorities: "How shall we put this handbook into the hands of intelligent people—everywhere?"

The problem was as big as the world's map. Various methods were considered and discarded.

Final judgment pointed to this most appropriate and logical way:—The Remington Typewriter Company was selected as the official distributor. Why?

—Because the Remington Typewriter Company is known wherever men communicate with each other in written language.

—Because the 658 Remington offices which dot the earth are supply stations for the most remote points in the two hemispheres.

To indicate further its belief in the Remington Typewriter, the Exposition management will type all its official letters on Remington machines. For the use of visitors, hundreds of Remingtons will be installed in the Exposition grounds.

What the Book Contains:

The illustrated *de luxe* Booklet of the Panama Exposition answers many interesting questions concerning the Exposition and the Canal.

For instance:—Why at Panama will the sun rise out of the Pacific Ocean and set in the Atlantic? What were the climatic conditions which the 50,000 canal workers had to face on that strip of tropic land? How long will it take to pass a giant steamship through the canal? How will this vast national enterprise affect the Nation's trade routes and the world's commerce? How will the Exposition be staged? What will visitors see when they get there?

This handsome booklet is full of beautiful colored pictures illustrating the text, as well as several double-page maps.

You will do well to get a copy of this beautiful booklet which, in accordance with our arrangement with the Exposition, we are now distributing free.

Call at our local office and we shall be glad to give you a copy.
