

## HIGH SCHOOL NOTES

"The Starry Flag" is the name of the play that has been chosen by the English department to be given by the senior class this year. The play is a melodrama of the Spanish-American war and is full of action but not lacking in serious and pathetic situations. Professor Alexander, senior English teacher, who will coach the play, is now picking the cast.

A talk on "Radium" by Max Donaeur featured the weekly meeting of the Stump society yesterday afternoon. The speaker told of the wonders that radium is working and gave some information regarding its discovery and future. Morris Litman, who five years ago was a Russian immigrant, led in the negative discussion on the Burnett immigration bill. Following Litman, all the Stumpers voiced their views on the measure.

The meeting of the Athletic association, which was to have been held yesterday afternoon, was postponed because of a lack of a quorum. The meeting probably will be held during the 20-minute period next Tuesday, according to President Roderick Dunn.

Permanent card programs for the second semester will be made out today. They will be put on file in the office for reference.

The final rehearsal of the orchestra before the annual concert Friday took place in the assembly room yesterday afternoon. For the first time this year a full attendance was present and Dwight Hiestand, director, was gratified with the results. This afternoon the members of the musical society will engage in the last practice.

The second group picture of the 1914 Zenith board was taken yesterday afternoon:

Tickets for the joint musical society and orchestra concert on Friday have been placed in the hands of the members of the organizations and Miss Margaret E. Taylor, assistant principal, for distribution. No fee will be charged for the concert, but admission will be made by ticket.

Friday is the last day that seniors will be able to order class pins and Albert Olson, who is handling the buying of the pins, is swamped with the orders of the 1914 students.
