

FIELDMAN COMPANY TO OPEN NEW STORE TO PUBLIC TODAY

Work of moving its stock in the new department store at 314 North Central avenue has just been completed by the A. Fieldman company and today the store will be thrown open to the public.

The building cost \$15,000 and is one of the best store buildings in West Duluth. A front on the arcade plan gives the store an exceptional window space for display. The entire store provides nearly 15 times the floor space of the company's former store. The building contains two floors and full basement.

Dave Fieldman, an engineer and son of the owner had charge of the construction work.

All the material and supplies used in the construction of the building, wiring and decorating were purchased from West Duluth merchants and the work was done by West Duluthians.

Every convenience for shoppers is installed in the building, including rest rooms and telephones.
