

68 EAST END BOYS WRITE TO COUNCIL TO GET BALL PARK

A big ball park, with a real backstop and no windows near, will be the reward for 68 East End boys who had the nerve to write to the council for a playground near the Endion school.

Mayor Prince has decided to fit up the vacant lot between Seventeenth and Eighteenth avenues East below Fourth street as a ball ground, have a backstop erected and "let the lads go to it."

In their letter the boys say their present ground is so small they are in constant danger of breaking windows.

"We cannot play in the street, and if we go to any other lots the ladies shoo us away and threaten to have us arrested," says the letter. "We do not want to break our fathers by paying for broken windows or getting in jail for trespass."

The letter was signed by:
