

70 CITY 'GRADS' TO 23 COLLEGES

One-Third of 1915 Central High School Class to Enter University of Minnesota.

TECHNICAL COURSES CHOSEN BY MOST BOYS

Courses for Teachers Most in Favor With Girls Who Will Take Advanced Work.

Nearly one half of the 1915 graduates of the Central high school, will continue their advanced work, in higher schools or universities. Of this number, one-third will enter the state university. The percentage of the students who expect to continue their work in some advanced schools, shows a great increase over the graduates of the previous year. Among the boys, technical courses, such as engineering and agriculture, seem to be most popular, while with girls, teacher's courses are the most favored.

Following is a list of the graduates and the schools or colleges, in which they will be enrolled this year:
