

# SIX PUZZLE SOLUTIONS

◆◆◆◆ ◆◆◆◆ ◆◆◆◆ ◆◆◆◆

## THREE OF THEM CORRECT

---

Again there was a fine crop of "puzzlers" who decided to use desperate means to solve the puzzle. Three turned in the wrong solution to the problem, their method being the same.

Patterson and Achley of Coleraine and Mrs. H. B. Denton of Eveleth are the unlucky ones. Others that failed to solve the puzzle were hopeless.

Those in today's mail who turned in

correct solutions are Walter Prince, Gilbert; Ethel D. Hallock, Tower; and Helen Seashore, Duluth.

The problem is to draw the figure without raising the pen from the paper and without retracing a line. Solutions should be drawn in with black ink and should bear the author's name and address. No prizes will be given.
