

L. KARON IRON & METAL CO.'S YARDS.

THIS money making business was established by L. Karon in 1888, and from a small beginning has been developed into one of the leading concerns in scrap iron, secondhand machinery, old rubbers, rope, all kinds of metals, new and secondhand socks, paper and rags, giving the people a cash market for what is turned into waste material, to help out on the upkeep. In 1904, Ben Karon, the son, became identified with the business and in 1911 was taken as a partner. He put new vim into the business and as a result the jobbing trade was extended eastward to Chicago, Buffalo and New York and west-

ward to Montana state line. The L. Karon Iron & Metal company's office and yards are located at Eighteenth to Nineteenth avenues West and Railroad tracks, covering a whole block, 400x400 feet and is a very busy industry. Its city business runs into the thousands of dollars monthly and this money goes into the pockets of the housewives and younger members of the family as a nest egg, money saved from the heretofore waste material. To find a market for this waste all that is necessary is to call up Zenith phone, Lincoln 366; Bell phone, Melrose 667.
