

WEST END SCRAP IRON & METAL CO.

THIS business was established in 1906 by J. Davis and W. Gansburg, two of Duluth's enterprising business men, who have built up an extensive trade in scrap iron and metals, all kinds of second hand machinery, the plant covering an entire block, at 1910-12 West Michigan street. This gives them the best of receiving and shipping facilities, being on the tracks of the Soo line and Northern Pacific. The West End Scrap Iron & Metal company's busi-

ness is so extensive that there is from 40 to 75 cars on the tracks all the time, coming from the states of Michigan, Illinois, Iowa, Wisconsin, Minnesota, North and South Dakota. They have the markets of Milwaukee, Chicago and Philadelphia for their products, besides that of all the Duluth foundries and the Minnesota Steel company. If you want to get in touch with the West End Scrap Iron & Metal company, telephone Melrose 3499 or Lincoln 480.
