

DULUTH HAS 228 FACTORIES

MAKE 1,000 KINDS OF THINGS

Through the efforts of the Duluth Commercial club, it has been determined that Duluth harbors no less than 228 manufacturing concerns, and that among them they turn out nearly 1,000 different articles. New companies are locating here constantly, and the list reproduced herewith may not be complete to the minute, but it represents virtually all of the firms.

This list shows merely what the firms manufacture, not necessarily what they carry in stock. Firms which do not manufacture are not represented. The Minnesota Steel company is the largest concern contained, employing 2,478 persons.

In the event of two figures in the names following, the first will mean the number of employees, while the latter will represent the number of manufactured articles turned out. When only one number is shown, it will be designated. The list follows:

Adams, David, 1922 West Michigan street. Blank books and printed matter.

Adept Map Company, 516 Glenoac building.

Advertiser Publishing and Printing company, 117 West First street—(4).
