

CENTRAL HIGH SCHOOL

HONOR ROLL PUPILS

"A" honor list of Central high school of students having an average of 90 per cent or over in all of their studies shows a large decrease over the preceding month's averages. Only eight students of the freshman, junior and senior classes attained the honor while the second year students accredited only six of their number to the list. Especially noticeable is the poor showing of the freshmen who have been maintaining a high average thus far in the year, more of their number on both honor lists than any other of the classes. In the "B" honor roll the juniors top the list with 28, the seniors a close second with 25,

and the freshmen with the lowest average.
