### RELIABLE METHOD OF HAIR CARE

Hair is by far the most conspicuous thing about us and is probably the most easily damaged by bad or careless treatment. If we are very careful in hair washing, we will have virtually no hair troubles. An especially fine shampoo for this weather, one that brings out all the natural beauty of the hair, that dissolves and entirely removes all dandruff, excess oil and dirt, can easily be used at trifling expense by simply dissolving a teaspoonful of Canthrox (which you can get at any drugstore), in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply to all the hair instead of just the top of the head. This chemically dissolves all impurities and creates a soothing, cooling, foaming. Rinsing leaves the scalp spotlessly clean, soft and pliant, while the hair takes on the glossy richness of natural color, also a softness which makes it seem much heavier than it is. After Canthrox shampoo, arranging the hair is a pleasure.
