"Hot Lunch" Demonstrations At Factories

Continuing the movement backed by the extension department of the Y. W. C. A. and Miss Frances Quilliard, for awakening the interest of employed girls in serving a hot dish at the lunch hour, a demonstration was given yesterday at the Klear-flax factory when corn chowder was prepared. It is gratifying to those in charge of the work to find the employers so willing to co-operate in aiding the girls to have a hot dish at the noon hour. Demonstrations will be given in nearly all the larger factories and stores.
