

APPOINTMENTS FOR SCHOOLS ANNOUNCED

Rural Teachers of St. Louis County Are Listed For Year.

Despite the difficulty experienced by the county school board in filling all vacancies in the county district schools, most of the positions have been taken now, according to the compilation of rural school teachers made by Miss Lillian Noonan, county principal of schools, yesterday. In only a few instances do vacancies still exist. About 50 per cent of the teachers reside within the county.

For a time the teaching situation in the county was acute but through the efforts of Miss Noonan the field was thoroughly covered and much satisfaction has been expressed by the county board of education that the problem of procuring instructors has been met so that there will be no delay in opening all county district schools on schedule time next month.
