

VIRGINIA SALESMAN VISITS COOK VIA AIR

COOK, Jan. 18.—Carl Shapiro, Virginia manager of the Northern Oil company has the double distinction of being the first man to make use of an airplane for local business travel, and of being a passenger on the first airplane ever to land at Cook.

Yesterday was Mr. Shapiro's day for a trip to Cook. Art Pierce and Herb Howell were at Virginia with their airplane. Mr. Shapiro decided to make the trip to Cook and at the same time experience an airplane ride. With Pierce driving, the trip to Cook was made in 20 minutes and the return in 18 minutes, while a half hour was devoted to attending to business at Cook.
