

ORECK STYLE SHOW MODELS

Suits and wraps for the Oreck Store style show to be staged at the Lyceum theater during the week beginning Saturday, Aug. 20, are already beginning to arrive and indications point to the most gorgeous array of feminine apparel ever shown to the Duluth public.

The above suit was created and designed by Joseph of New York and Paris, is one of the advance models to arrive. It is brown marvella, trimmed with sable and gives a good indication of the street suits to be worn next fall and winter.

Gowns and wraps for the Oreck style show are being made by the master designers of this country and these will be worn by Duluth's most beautiful girls, who are now being selected as models for the display. The style show will be the feature attraction at the Lyceum theater for the week, elaborate plans being made at the new playhouse to provide special stage settings and scenery for the event.

Shoes worn by the models will be furnished by the Smith Shoe company.
