

# Rabbi Lauds U.S. for Treatment Accorded Jews

Praising the United States for just treatment of the Jews, pointing out why the Jews must have a nation of their own in Palestine, and denouncing Bolshevism and I. W. W. as the worst form of atheism, free love, murder and anarchy, Rabbi Joseph Goldberg of Kisheniv, Russia, spoke to a capacity audience at the First Presbyterian church last night. Rabbi Goldberg will leave today for Seattle en route to Palestine.

"The last four years have given the world the full understanding of the great promise God gave to Israel 4,000 years ago," Rabbi Goldberg asserted. "Babylon, Rome, Persia, Egypt, Portugal, Russia, Germany, Austria, Bulgaria and Turkey have persecuted the Jews as a nation. These nations are no more or are going down fulfilling the terms of the covenant God made with Israel."

That there is not a Jew I. W. W. in America is the claim of Rabbi Goldberg, who declared that the United States would be dealing with a gang of criminals if it should officially indorse trade with Lenine and Trotsky.

"The Russian Bolsheviki and the American I. W. W. have a similar mission, the overthrow of the United States government," the rabbi declared. "Show me an I. W. W. and I will prove that he is a Bolshevik. I believe that a part of the crime wave now sweeping the United States can in certain aspects be traced directly to Lenine and Trotsky."

"The United States is the world's greatest nation. It has given the Jews and everybody else a square deal. I am proud to say there is not a real Jew in power among the Bolsheviki in Russia. Propagandists against my people in America are false," he said.

Rabbi Goldberg's son, with whom he escaped from Russia, was killed during the World war. His wife and six children were murdered in a Jewish pogrom in which 20,000 Jews were killed.

"There are 80,000,000 Jews in Russia. The majority of them will move to Palestine where they can escape the persecutions imposed upon them by the Bolsheviki and live in peace and happiness," he concluded.
