SAFETY AND SERVICE

The Ounce of Prevention

There is no "cure" for the financial loss represented in uninsured property or merchandise that is damaged or destroyed by fire or accident.

There is no cure—there IS prevention. Insurance, if rightly applied to your risks—and dependable—prevents financial loss through property loss.

We can give you property insurance whose dependability is based on a 132-year record of met obligations. And we can show you how to apply it economically to your individual risks.
