

On This Occasion

Just a few thoughts by the Editor on things Material and Immaterial.

The Miner has frequently called attention to the recklessness with which local store truck drivers rushed about the city and said some day something would happen to slow them up a bit. Well it did. One of the boys was up before Judge Toms last week on the charge of reckless driving and paid a fine of \$10 and costs. Since that time the delivery trucks have lessened their speed, do not dodge out of the alleys and cross-walks or through school zone lanes at terrifying speed. "Pocketbook" lessons seem to have better effect than moral lectures.

In the U. S. bill to balance the budget it is proposed to cut out the Saturday half holidays for Federal employes, costing the government a gross total of \$9,000,000. Under the rule that prevails in the larger industrial centers of "no work, no pay," countless other millions could be cut from the budget by deducting all holidays and sundry other vacations which the taxpayer with his nose constantly on the grindstone, cannot afford to take but which the government employes with their horde first, second and third assistants consider a perquisite to their positions. During the flush times of peak wages the taxpayer failed to note these items. He has his eyes open at present, however.

Is machinery causing bankruptcy of the farmer? A farm paper over in North Dakota makes the claim that the tractor is the cause. It states that the uses of gasoline driven trucks and cars in the U. S. in displacement of horses has meant that 360,000 acres of land that was formerly used for raising grain to feed horses has been released to produce wheat. At ten bushels to the acre this means 360,000,000 bushels of wheat or a little more than our present yearly surplus.

Abraham Lincoln pleaded justice for all in the troublous times that fell to his lot when he said: "That some should be rich shows that others may become rich, and hence it is just encouragement to industry and enterprise. Let him who is homeless not pull down the house of another, but let him work diligently and build one for himself, thus by example assuming that his own shall be safe from violence when built." Lincoln evidently had the same kind of people to contend with during his time as the president has now. Then as now there were people whom the world owed a living but they would not even lift a finger to collect it.

Representative Hitchcock hit on the core of the argument when he said that no matter how useless a politically created department of government proves itself, those in the department can cite several hundred reasons why the uselessness should be continued. The majority of the reasons, and in fact nearly all of them, when boiled down spell salary and emoluments. Vice President Dawes at one full swoop dislocated over 3,000 from the public payroll at Washington whose principal occupation was he said, "to go out to lunch." Washington still has a surfeit of this kind who cannot be displaced as they are special appointees of congress. Our own state has them and every county, township, school district and municipality has them. One out of every seven of our population is living off the taxpayer.

Minnesota will attract some attention this year with its state-wide election of nine con-

(Continued on Page Four.)

THE ELY MINER

VOL. 38, NO. 47.

ELY, MINNESOTA, FRIDAY, MAY 20, 1932.

\$2 PER YEAR IN ADVANCE.

WM. FURLONG LEGION CHIEF

Eighth District Nominates Wm. Furlong of Hibbing as District Commander.

William Furlong, Hibbing, present Eighth district legion adjutant, was nominated at the district convention in Cloquet Saturday for the office of district commander, the annual election of the district officers to take place in June at a place to be named shortly. Others put up for offices at the time were George Vivian, Duluth, for adjutant, and for vice commanders: Charles Honka, International Falls, border area; John Bachena, Coleraine, Mesaba-Itasca area; J. J. Beaton, Nashauk, Mesaba-Itasca area; Ray Mattson, Tower-Soudan, Mesaba-Vermilion area, and Earl Guilmoit, Biwabik, Mesaba-Vermilion area.

Delegates nominated to attend the national convention of the American Legion at Portland, Ore., in September include: Louis Eckenrode, Eveleth; Dr. H. W. Schmidt, Hibbing; George Sjogren, Duluth; Patrick Farnand, Hibbing; Galen Finnegan, Grand Rapids, and E. J. McGilvray, Cloquet. From this group three will be named as delegates and three as alternates. There was discussion of backing E. V. ("Pat") Cliff of Ortonville for national commander, and Nate V. Keller, Virginia, was endorsed for delegate-at-large to the national convention at Portland, to be voted upon at the state legion convention at Bemidji in August.

No nominations of any kind were made at the legion auxiliary meet Saturday, both the nominating and electing of officers and delegates being left to take place at the meeting in June.

About 125 delegates from points in the Eighth congressional district attended the one-day meet with more than 200 in attendance at the banquet program and dance held in Eagles' hall in the evening. The Ely Auxiliary was represented by Mrs. Peter Schaefer.

Judge Elmer McDevitt, Duluth, colonel of the One Hundred and Twenty-fifth field artillery, was the principal speaker at the banquet. C. I. McNair of the local Carl Anderson post was the toastmaster. Short addresses of welcome were given by Mayor H. G. Kaner, who presented the key to the city to Mrs. A. C. Schaefer, Duluth, district auxiliary vice president; T. Shantz-Hanson, Cloquet, post commander, and Mrs. J. E. McGilvray, president of the local auxiliary unit, with responses made by Jack Rivall, Hibbing, district legion commander, and Mrs. Schaefer, Duluth, district auxiliary vice president.

There followed the introduction of distinguished guests, who extended greetings, including: Oscar Youngdahl, Minneapolis, state legion commander; Mrs. Halsey D. Cory, Winona, state auxiliary president; Mrs. John Rowe, Eveleth, state auxiliary chaplain; A. B. Kapplin, Duluth, and G. V. Barron, Cloquet, past state commanders; E. J. McGilvray, Cloquet, district commander, and Mrs. Fred Decker, Cloquet, district auxiliary president. A presentation of past district commanders lodge was made to Judge McDevitt, first to hold that post in the district, by E. J. McGilvray, past commander. In appreciation of her work and interest and that of the local auxiliary, G. V. Barron presented a bouquet of roses to Mrs. Decker from Carl Anderson post. Judge McDevitt in his address of the evening, "National Defense," declared this country, despite its comparative great wealth, resources and population, has at the present time a pronounced lack of national defense. He insisted there is actual need of a greater means of defense tranquility and peace for this nation.

Speakers at the business session of the legionnaires held in the legion club-rooms, starting at 4 P. M., were Oscar Youngdahl, Minneapolis, state commander; Paul Dickensheets, Minneapolis, veterans' bureau; Lewis Lohman, St. Paul, and Homer Carr, Proctor, district service officers. A report on hospitalization, adjusted compensation and disability allowances in the district was made by Mr. Carr. Membership and community service were also discussed.

The Eighth district legion auxiliary, meeting in the Jefferson school auditorium, opened at 3 o'clock with a memorial service dedicated to auxiliary members in the district who had died in the last year. Small children placed carnations in a cross of evergreens indicating the loss of a member. Mrs. Rowe, Eveleth, district chaplain, read the service.

Auxiliary members who have died in the last year and to whom the services were held in memory were: Mrs. Anna Madsen, gold star mother, Moose Lake; Mrs. Caroline Peterson, gold star mother, and Mrs. Augusta Katsel, Barnum; Mrs. Annie Harrison, Duluth; Mrs. Asora B. Wick, Two Harbors; Mrs. E. B. Sher, Hibbing; Mrs. Mary Elton, Mrs. Louise Carlson, and Mrs. James Coad, Mountain Iron; Mrs. Lucy Spawn, Grand Rapids, and Mrs. Hannah Helkala, Ely.

Nineteen of thirty-five units in the district were represented, giving splendid reports on work done by each unit from January to May, in Americanization, child welfare and hospitalization. Ways and means of raising money to help disabled veterans and families were discussed.

Memorial Day Program.

A Memorial Day program is being arranged by the American Legion post of the city. The program will be complete next week and given to the public. A fitting observance is being arranged.

Twelve 90-degree Days Here Last Summer.

Residents of Ely and vicinity may anticipate 12 days during the coming summer when the temperature will exceed 90 degrees, if last year's weather record is duplicated, according to authorities which have made a study of official weather figures for this area. Residents of the locality may also look forward during the year to 62 days of temperatures of 75 degrees and over. Of the 90-degree days, five will come in June says the report of those making the study.

MURRAY OUT AFTER FIGHT

Stuart Murray Resigns at Sixth District Commissioner; Will Run for Re-election.

Following a court action which has kept Stuart Murray, commissioner of the Sixth District in hot water since his election two years ago, Mr. Murray has resigned and the office will be filled by appointment of a successor to hold office until the next general election fills the same.

Immediately after his resignation, Mr. Murray notified the commissioners that he will become a candidate for the office at the June primaries. The judgment denying him a new trial was received by County Auditor Borgen and the auditor immediately took steps to call a meeting of the district executives who will choose a successor. A majority vote will be necessary to name the successor and in case of a tie, Harry E. Boyle, county attorney will cast the deciding ballot as provided by law.

Mr. Borgen will organize the meeting at 1:30 in the afternoon of Tuesday, May 24, at the court house in Duluth after which a permanent chairman will be elected. It is the general opinion that Victor Essling, mayor of Eveleth, will be chosen as chairman. Mr. Borgen will probably be elected secretary. The following communities will have a voice in naming the successor: Townships of Argo, Ault, Bassett, Biwabik, Clinton, Colvin, Ellersburg, Embarras, Fairbanks, Fayal, McDevitt, Mesaba, Missabe Mountain, Waasa, White and Woori, and villages of Aurora, Biwabik, Franklin, Gilbert, Iron Junction, Leonidas, Mesaba, McKinley and Mountain Iron, and cities of Eveleth and Virginia.

\$500 REWARD MAN-SET FIRE

Government Offers Reward for Arrest and Conviction of Incendiary.

Ten fires set by one man, within a period of two hours, created a serious fire condition on the Flambeau National Forest in Wisconsin recently. This is the word received from Forest Supervisor Harmon at Park Falls, by the Regional office in Milwaukee, and, except for the promptness with which the fires were detected by observers and lookout towers, results might have been much worse. Very soon after the first smoke was seen to rise, Federal and State Fire Wardens were notified, and in a very short time a second smoke was seen, then a third, and so on until a total of ten had been counted; and the incendiary who was responsible for these fires clearly marked his progress by the smokes he left behind. In spite of this fact, he reached a highway before officers could intercept him and although he has not been apprehended a very definite search is being continued.

Characters of this sort, with no regard for property rights or human life, are entitled to no more consideration than the racketeer who would shoot down a rival in cold blood—even less, for the racketeer who has a financial or business grudge against his victim rarely endangers the lives of innocent bystanders, while the fire bug immediately puts in jeopardy the lives of innocent people, private property and wild life, and retards the maturity of a crop of timber sorely needed by the lumber and pulpwood industries.

The United States Forest Service will pay not more than \$500 and not less than \$100 for information leading to the arrest and conviction of any person or persons on the charge of willfully and maliciously setting on fire, or causing to be set on fire, any timber, underbrush or grass upon lands of the United States within a National Forest. Information about acts of incendiarism and claims for reward should be forwarded to the local Forest Supervisor or filed with the Regional Forester in Milwaukee.

While the number of fires started by incendiaries is smaller annually than those caused by carelessness, every representative citizen should consider it his duty to do everything possible in cooperation with the States and Federal Forest Service, in stamping out this class of trouble-maker.

As a penalty for maliciously starting fires on lands owned by the United States, within a National Forest, the offender may face a very heavy fine in addition to a considerable term in a Federal prison, and Federal officers will make every possible effort to place such criminals behind the bars.

SPORTSMEN MEET HERE

The Arrowhead Sportsmen's Association Will Meet in Ely on June 11.

President J. J. Boldine of the Arrowhead Sportsmen's association has given out the advance information that the sportsmen from several towns in the association will meet in this city on June 11, at the City Hall building. The meeting will begin at 1:30 in the afternoon and an excellent program is being prepared for the event.

At this meeting the reports of officers will be given and a number of conservation measures will be presented by the affiliated clubs and discussed. W. E. McEwen, chairman of the State Conservation Commission, will be the principal speaker of the day. Mr. McEwen will speak on matters of vital interest to this section of the state. As he is a speaker of renown, his talk will be a drawing card guaranteeing an attendance of all those interested in game conservation.

In addition to Mr. McEwen, Dr. J. E. Thompson, who has been in demand as a speaker at various sportsmen's functions, will speak on the moose tick situation of which he has made an exhaustive study and which at present is occupying the attention of the Minnesota authorities and university professors.

All those interested in game and fish and can possibly attend should not miss this meeting. Further arrangements will be duly brought to the attention of the reader through these columns.

Leave the Little Bears And Fawns in the Woods.

People visiting the woods at this season of the year frequently find young animals and being attracted by their babyish appeal are tempted to take them home as pets, says a writer in Fins, Feathers and Fur, the organ of the State Game and Fish Department. The writer also gives the following advice:

"Do not take it. In the first place the mother animal can do a far better job raising the youngster than you can and in the second place it is illegal. A cub bear is an amazing bit of mischief very changeable by nature and unless inclosed in a cage may cause considerable trouble.

"A fawn will eventually grow into an adult deer and can become quite a nuisance near human habitations. On account of its tameness it is likely to fall prey to some poacher or wander on to a highway, endangering both its own life and that of automobilists.

"The confiding fawn has no instinctive fear of man and will allow him to approach without taking alarm. In many cases the fawn may be petted and will trustingly follow the man. The state department has received many requests for permission to keep a 'lost' fawn. The fawn is not lost, and the division will not grant such a request."

BEWARE OF JUNK

Economy is in fashion, nowadays; largely because of necessity, partly because the other fellow is talking about it.

Economy is a good old American custom. But false economy is equally a national fault.

In economizing, these days, it behooves one to avoid false economy.

In other words, don't spend good hard-earned money for "junk."

Commodity prices are down. The retail market offers some of the greatest values in quality merchandise that have been seen in years. But along with them are floods of "junk," poured into the market by unscrupulous persons who seek to capitalize on the present trend toward economical buying.

Beware of "junk."

Scrutinize merchandise offered at suspiciously low prices. Be sure it is a bargain before you buy. If it is real quality merchandise offered at a sacrifice, it is a good buy. If it is "junk" it may be costly at any price.

Purchasers will find their home town merchants—those who live and work in and are a part of our community—are in the long run the most reliable sources of quality merchandise. They have to be. Their living depends upon it.

The "junk" dealer comes in today and offers "gyp" merchandise, clever imitations of the real articles, at attractive prices. It looks good. So do the prices. The test comes in use or consumption. Then it is too late to complain. The "junk" salesman has moved on to another town, there to "take in" another lot of gullible people who looked for price and took quality for granted.

A thirty-five cent hammer may look as good as one that sells for \$1.50, but in use there is a vast difference.

A cheap thermometer may look as good as an expensive one. Yet when illness runs rampant in the household, a poor, inaccurate thermometer is more dangerous than a bottle of poison.

Sheets heavily laden with filler that becomes cheese-cloth upon laundering; hose that resemble spats after a half day of wear, so far as heel and toe are concerned; a water bottle that goes berserk in an emergency—all of these may be purchased at a price. But how costly they prove to be, when usefulness is considered.

Economy is essential in these days, but false economy is too expensive a luxury to be tolerated.

Buy quality at fair prices; look out for "junk."

Republican Rally.

The Republican campaign will be formally opened with a rally at Hibbing on Friday evening, May 27. A large delegation is expected to attend this meeting from all the neighboring towns.

Earle Brown and other Republican candidates for state offices will be present. Mr. Brown will be the principal speaker on this occasion, the organization drive meeting. A buffet supper is being arranged by the Younger Republicans for after the meeting. Edwin J. Lindell, secretary of the state body is cooperating with the Hibbing young men in arranging for the meeting.

FISH FRY PLANTED

Sixteen Million Pike Fry Are Planted in Lakes of the Near Vicinity.

One hundred and forty six cans of pike fry were received Tuesday and one hundred and forty three on Wednesday. Those who applied for the fry were on hand to receive their allotments and at once planted them in the lakes for which they were secured.

The fry were transported here by trucks from the Tower hatchery. Each can contained approximately 50,000 of the fry and the total secured amounted to about 16,000,000 of the tiny fish. Requisitions had been sent in for more but the allotments were made according to the size of the lakes and the number of applications received for each body of water.

It is estimated that about 80 per cent of the spawn will live and mature if properly planted. The other twenty per cent are lost by planting without paying proper attention to the temperature of the water, planting too near shore and the cannibalistic tendencies of the larger fish.

The disposition of the fry by cans and the lakes in which they were planted were:

Tuesday—Fall 16; Eve 5; Burnside 50; Birch 40; Eagles Nest 12; Clear 2; Armstrong 4; and Big Lake 18.
Wednesday—First 2; Event 3; Johnson 5; Second 2; Cedar 4; McDougal 6; Sand 5; Gogoka 2; Grouse 1; Farm 7; Twin 6; Jasper 2; Deep 2; Slate 2; Chub 2; One 8; Little Long 3; White Iron 36; Bear Island 19; Birch 10; Moose 12, and Clear Lake 2.

Within a short time the allotment of trout fry will be received and planted in the creeks and rivers for which they were requested. Local sportsmen are doing the planting under the supervision of the game wardens.

Two More Years Assured.

A ruling has been made by C. E. Adams, special attorney for the board of St. Louis County Commissioners to the effect that Probate Judge Wm. J. Archer has two more years to serve and will not be compelled to stand for re-election this year. This is welcome news to Judge Archer's host of friends throughout the country.

H. S. ORCHESTRA ON THE AIR

Ely High School Orchestra Will Broadcast From WEBC at Superior Tomorrow.

Director Frank DiNino will take his popular High School orchestra to Duluth and Superior tomorrow and broadcast a program over Station WEBC at 2:30 in the afternoon. The broadcast will be from the Superior studio in the Telegram building and the program will be as follows:

"Procession of the Sardar," Ippolito Ivanov
Clarinet Ensemble "Scarf Dance," Chaminade
"First Movement from the Second Symphony," Haydn
String Ensemble "Two Guitars" and "Russian Folk Song."
"Reverie," H. Vieuxtemps
Oboe Solo "Floods of Spring," Rachmaninoff

Selection "Carman," DiNino.
The orchestra is composed of the following with the instrumentation as given:

First Violins—Mildred Carlson, Lawrence Berglund, Ethel Supantich, Mary Louise White, Harriet Jeffery, Mary Stalcar, Sally Beuk, Therese Buraglio.
Second Violins—Elsie Ranta, Eileen Gibson, Josephine Shepel, Nancy King, Gertrude Wilson, Robert Merhar, Terri Fronti, Fern Palmer.
Cellos—Josephine Slogar, Doris Santo, Mary Elizabeth Berg.
String Bass—Walter Enquist, Elm Ohonen, Linda Laitala.
Flute—Audrey King.
Oboe—William Parker.
Clarinet—Alden Graves, Henry Korent.
Alto Clarinet—Frank Laing.
Bassoon—Jack Ghanotti, Jr.
Horns—Vincent DiNino, Tauno Erikila.
Trumpets—Arthur Seraphine, Charles Trezona.
Percussion—David King, Mona Kent, Earl Edwards.
Piano—Margaret Agnich, Robert Moonan.

REPORT GIVES MOTOR FACTS

Minnesota Stands Tenth in Amount Paid for Motor Licenses.

According to figures compiled by the U. S. Department of Agriculture, Minnesota stands fourteenth in number of motor cars and trucks registered in 1931, tenth in amount paid for motor vehicle licenses, and eighteenth in population, a state highway department bulletin reports.

New York leads the list with 2,297,249 motor vehicles and license receipts totaling \$41,877,811. California, with 2,043,281 motor cars and trucks, ranks two places behind Minnesota in amount of license receipts, due to the fact, the highway department bulletin opines, that the tax paid on motor vehicles as personal property is not included in the license payment totals for that state, and which would make both the total receipts and the average cost per motor vehicle much higher than Minnesota.

Wisconsin, Missouri, Iowa, and Minnesota rank eleventh, twelfth, thirteenth and fourteenth, respectively, in motor vehicle registration, but while still close enough together to afford interesting comparisons the standings are changed as to totals of receipts from licenses and in population totals.

Iowa takes first place in the group in license receipts with a total of \$12,539,613; Wisconsin next with \$11,724,996; Minnesota third with receipts totaling \$10,784,245; and Missouri, \$10,140,429. These totals place the four states, respectively, in eighth, ninth, tenth and eleventh places nationally.

Wide variances are indicated in the matter of population. Missouri stands tenth with 3,629,387; Wisconsin thirteenth with total population of 2,939,006; Minnesota eighteenth with 2,563,963; and Iowa nineteenth with 2,470,959.

The average cost for motor vehicle licenses in Iowa in 1931 was \$16.82; Wisconsin \$15.55; Minnesota \$14.57; Missouri \$13.59.

Motor vehicle registration totals in the four states were: Wisconsin 754,249; Missouri 752,805; Iowa 748,438; Minnesota 720,461.

Buoys to Mark Channels.

The St. Louis County Commissioners have approved an appropriation of \$1,400 for buoys to mark the channels and dangerous reefs in Vermilion and Burnside lakes. \$900 will be spent for the purpose on Lake Vermilion and \$500 on Burnside. The work will be done under the supervision of Commissioner Peto.

POPPY SALE

The Poppy Sale of flowers made by disabled war veterans and the proceeds of the same to be used for local relief work will take place on Saturday, May 28, says Mrs. Rex Larson who is chairman of the committee of the American Legion Auxiliary in charge of the sale. BUY AND WEAR A POPPY.

Attended Out-Door Show.

Those from here in charge of the Big display at the Out-Door Show in Chicago last week returned Saturday and Wednesday and reported a very successful week with a large attendance to whom they distributed literature and information on the advantages of this section as a recreational center.

In attendance at the show from Ely were Harrison Stetten, J. D. Fluth, Dr. H. C. Newgord, Ray Hoefler, Joe Turini, M. W. and Mrs. Peterson, Wally Hanson, Arthur Russell and Sig Olson.

ELY MAN GETS FIRST PRIZE

J. H. Sento of This City Gets First Prize in Arrowhead Picture Contest.

Winners in the Arrowhead Picture Contest were announced in Duluth Wednesday by Alfred Hoel, president of the Minnesota Arrowhead Association. More than 1,200 pictures were entered in competition which closed on May 1.

J. H. Sento of this city secured first honors and \$25 cash with a picture of himself in a canoe holding a 30-pound lake trout which he caught at Otter Lake on the International border.

In the special contest for children the first prize of \$10 was awarded to Carney R. Soderberg, 12, Duluth, for his picture of a scene at Beaver Bay. The other prize winners were:

Second prize, \$10, Mrs. George Brown, Duluth, for a picture of Rebecca Falls on the Canadian border.

Third prize, \$5, Floyd P. Drenth, Cass Lake, moonlight scene on Round lake, near Cass Lake.

Second prize in the children's contest, \$5, to Kenneth Blackwell, 14, Grand Marais, for his picture of a bear on the Gunflint trail. Third prize, \$3, Margarette Pyette, Beaver Bay, for her picture of a deer taken north of Baginaw, river.

In the list of twenty-five awarded honorable mention are given the names of C. Chinn and Miss Inez Saxina of this city.

The judges who made the awards were: Herman Willard Bayles, Chisholm; Herman Olson, Tower; Mrs. Walter McCarthy, Louis Dvorshak and A. T. S. Yates, Duluth. The best pictures entered in the contest are to be used by the Arrowhead association to advertise the recreational attractions of this region in the leading magazines, newspapers and tourist guide books in all parts of the country.

Patrol Emergency Work to be Aided.

In recognition of the benefits of the first-aid given by the members of the state highway patrol with innumerable accidents, a special program for members of the patrol has been arranged by the Minnesota Medical association in connection with its annual meeting at the Saint Paul auditorium on May 26th, a state highway department bulletin announces.

The program, according to Dr. R. A. Maynard, secretary of the association, will include demonstrations and discussions on "equipment necessary for first-aid treatment of fractures," "cuts and bruises," "head injuries in automobile accidents," "hemorrhages," and "first aid treatment of common injuries."

Through the courtesy of the St. Paul chapter of the American Red Cross, members of the state highway patrol have had the benefit of both senior and advanced courses of training in first-aid, according to Captain George Kuch of the patrol, and have had numerous occasions to make use of every phase of first-aid in their efforts to prevent injured persons from being additionally injured before they could be placed in the care of a physician. The special instructions to be given at the meeting of the medical men will equip them to still more capably give aid in cases of accidental injury, and as many as possible of the patrolmen will be relieved from duty on the highways to attend the meeting, Captain Kuch stated.

Old Settlers Meeting.

President W. F. Chinn of the Vermilion Range Old Settlers Association has instructed W. P. Fryer, secretary, to call a meeting of the officers and members of the association at Tower on the afternoon of June 2, at 2 o'clock. A good attendance is requested as business of importance is to be discussed.

Picnic Supper Enjoyed By Suomi Luther League.

The Suomi Synod Luther League enjoyed a picnic supper at the Kaleva Bay Lodge on Saturday. An impromptu program was given under the leadership of Mrs. Violet Lamm, Miss Vianna Hill and Miss Aune Faingard. Mrs. Wm. Faingard, chairman of the lunch committee had prepared a very appetizing supper of which a large number partook. All enjoyed the supper and program very much. The party was chaperoned by Miss Elma Petikka, Mrs. V. Kolvumaki, Mrs. G. A. Maki and Mrs. E. Lemko.

Only six more weeks until the kids start shooting off fireworks and their fingers.
