## SAFETY AND SERVICE

## A Good Name--

The other day we inquired about the honesty and responsibility of a certain individual. This is the reply we got:

"His word is as good as his bond."

No one can go wrong on a man whose word is always good. The best asset we can acquire is the respect and good will of our friends and business associates.

The man whose word is as good as his bond keeps his credit record on a high plane and is the best citizen of the land.

It is always a pleasure for us to be able to say "His word is as good as his bond." May we help you to keep your credit good.

Mrs. Mike Gordon entertained at two tables of bridge on Saturday afternoon at her home. First honors went to Mrs. David Bourgin and second to Mrs. Jean Seipp. The prize for a keno game went to Mrs. Maurice Kaner. A delicious lunch was served by the hostess.

Burnside Lodge entertained the guests with musical numbers and cards on Monday evening. Among the soloists for the evening was Mrs. Mary Stukel, who rendered several vocal solos. She was accompanied at the piano by Miss Lillian Schaefer.

Arnold and Victor Roterus are in the city for a visit with their father and sister. Arnold is from Chicago where he is connected with the Goodgear Tire & Rubber Company. Victor is an instructor in the Washington State University at Pullman, Washington.

**Farewell Party For Rev. and Mrs. V. Olson.**

Rev. and Mrs. Vendel Olson left Monday for North Branch, Minnesota, where Rev. Olson has been called to take charge of the Bethany Lutheran parish. Preceding their departure they were tendered a farewell party at the home of Mr. and Mrs. E. E. Strom at which fifty people were present. After a delicious lunch served by the hostess, Rev. and Mrs. Olson were presented with a purse as a token of esteem. Many friends in this city join in wishing them success in their new home and recommending them to the good people of North Branch.

Ray Hoefler, secretary of the Ely Commercial Club, and Dr. H. C. Newgard, left yesterday for the State Fair with the Ely Commercial Club exhibit at this the greatest of all state fairs. A large number of local people were present. Out-of-town guests were Mrs. V. Nurmi, Mrs. J. Ketola, Mrs. V. Saranen and Miss Saranen of Virginia.

**Earl Brown Endorses Income Tax Amendment.**

Urging support of the income tax amendment, Earl Brown, Republican candidate for governor, has pledged himself to use the new revenue to relieve the tax burden now weighing so heavily upon the farmers and laborers of the state. "I intend to vote for the income tax amendment in November," Mr. Brown declared. "I have always been for it. I believe that we can improve the method of collecting taxes. Adopting the income tax amendment is only one step. It must be made a replacement tax. If that is done it will be a good tax and I am for it."

"If I am elected governor I will use every ounce of my influence to see that it is made a replacement tax and not simply added to the present tax burden."

Mr. Brown's guarantee to use the income tax funds exclusively for replacement purposes plus his pledge to cut \$5,000,000 off the state tax levy gives the voters the most comprehensive tax and economy program offered by any party or candidate. E. L. McMillan, chairman of the Republican state central committee, declared.

**Schools Open on Tuesday.**

The schools of District No. 12 will open for the fall term on Tuesday next. All the buildings have been thoroughly renovated and placed in condition for the opening. The old high school damaged in the storm of July has been repaired and everything is in shape for a successful school term.

## COUNTY NEEDS RELIEF WORK

Matter Discussed by County-Wide Committee—Forest and Fire Broached.

A delegation consisting of Mayor Wolff, Alderman Homer and Assessor James were in Duluth Wednesday and assisted in organizing the St. Louis County Relief Committee and helped draft a report to be presented to Governor Olson in connection with the appeal for Reconstruction Finance Corporation funds to combat the unemployment situation.

A subcommittee of Duluth and range men to the number of 11 were named to make a survey of the economic needs of the county for approval by the parent body. Chairman Newman of the County Board made the appointment of the subcommittee of which he is the chairman. In addition to Chairman Newman on the committee are Emil S. Gustafson, city commissioner, Duluth; Earl Keene, city clerk, Elling; A. E. Bickford, city clerk, Virginia; Fred Spillman, president, Biwabik village council; County Commissioner Jacob L. Pete, Ely; M. B. Eison, secretary, St. Louis County Club, representing agriculture; Carl A. Gustafson, Duluth, president, Federated Trades Assembly, representing labor; J. H. Harding, Duluth, chairman, county poor commission; R. I. Griggs, Duluth, banker and W. F. Fellens, Virginia, superintendent, Oliver Iron Mining company, representing the mining interests.

In making the investigation into the relief needs of the county, the subcommittee will work in conjunction with Prof. Charles C. Stillman of the Ohio State University, employed to assist in co-ordinating the work of relief agencies throughout the county.

Alderman Homer also placed before the county commissioners and the State Conservation Commission the matter of cutting and depositing in the lakes in booms the down and damaged timber which covers an approximate area of 1,000 square miles and which was blown over, broken and damaged during the storm which passed through this section in July.

The proposition advanced is to get money to employ men to care for the timber and use the timber in the lakes for security. The fire hazard has increased greatly by reason of this damaged and down timber and in order to save it the idea is to log it. This will ameliorate the fire hazard besides keep the worms out of the down timber.

It was agreed by the commissioners to take the matter up with Governor Olson and the Federal Regional Forester and without a doubt something will be accomplished. Commissioner Jacob L. Pete also lent his efforts toward the movement by stating that 75 per cent of the timber in the Superior National Forest and that territory affected is about fifty miles long and twenty miles wide.

Mrs. Frank Grebenc is a patient at the Shipman Hospital recovering from a tonsil operation.

**Dieting Hint**

If you want to have perfect teeth, you should, according to an expert, partake every day of two apples, a pint of orange juice, two bananas, at least one egg, lettuce, and two other kinds of vegetables, and up to four glasses of milk. He does not state what you should eat to support the other parts of the body.

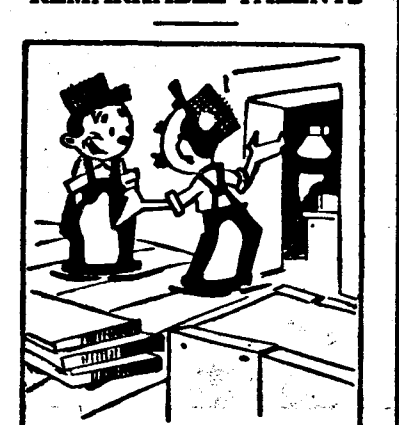

**Paine Never in Congress**

Thomas Paine was not a member of the Continental congress. He was secretary to the committee on foreign affairs and at times held similar secretarial relationships to other government bodies, but he was not a member of congress.

**Killing Your Goldfish**

## REMARKABLE TALENTS

"My girl has remarkable talents." "Yes? My girl isn't the handsomest in the world, either."

**Potent Church Bells**  
As the "curfew tolled the knell of parting days," so for ages have village bells knelled for the welfare of a departing soul. Once they were held potent against all evils. No longer ago than 1852 the bishop of Malta ordered the church bells to be rung for an hour "to lay a gale of wind." In France up to a decade or two ago it was not unusual to ring church bells to ward off lightning.

**Architect's Qualifications**  
To be successful the architect must have an intimate knowledge of a score or more of the building trades; of values, qualities and uses of building materials; of plumbing, ventilating, heating and wiring; of decoration, furnishing and finishing; of landscaping, community design and city planning, and of construction engineering and business management.

**Dust Particles in Air**  
The actual number of dust particles in a cubic foot of air can be counted in air samples collected with a new dust-sampling machine developed by the public health service. Rain washed outdoor air is the cleanest found, but even it contains an average of 300,000 dust particles to the cubic foot, or about 174 to the cubic inch, the tests show.

**Mending Celluloid**  
Ether has a wonderful effect in keeping broken parts of celluloid together. Tie the several pieces carefully in place and run some ether along the crack. The celluloid will then soften, and naturally work itself into one piece again when dry, becoming perfectly hard.

**Have No Need for Beauty**  
"We make our idols grotesque," said Hi Ho, the sage of Chinatown, "to show that the gods in their perfection disdain to glorify themselves with appearances of beauty which would cause envy."—Washington Star.
