LARVEX
MOTHPROOFS
the cloth itself
NOW'S the time!

No odor • no wrapping • no storing
wear clothes at any time

LARVEX—the greatest name in mothproofing — now brings you its sensational new easy-to-use Finger-Tip Spray. It's really fun now to mothproof your woollens and blended wool materials with LARVEX.

A good housewife knows it's best to mothproof the cloth itself to protect her woollens against moth damage. This is just what LARVEX does—why it's so different and gives such wonderful protection. LARVEX penetrates each tiny woolen fibre and makes the cloth so distasteful and indigestible to

mothworms, they'd rather starve to death than feed on woollens treated with LARVEX. Mothworms will not, in fact CANNOT, live and grow on LARVEXED woollens.

SO QUICK! SO EASY!
SO INEXPENSIVE!

One spraying with LARVEX lasts a whole year. LARVEX withstands repeated dry cleanings. Washing removes LARVEX protection. Only \$1.19 for LARVEX in the new easy-to-use Finger-Tip Spray. LARVEX is also available in pint, quart, half gallon and gallon sizes.
