BEFORE IT IS BORN. 🗰

Some Startling Statements of Genera Dr. Oliver Wendell'Holmes, on being asked when the training of a child should begin, replied, "A hundred years before it is

Are we to infer from this that this gen-

Are we to infer from this that this generation is responsible for the condition of the race a hundred years from now?

Is this wonderful generation the natural result of the proper diet and medicines of a hundred years ago?

It is conceded in other lands that most of the wonderful discoveries of the world in this century have come from this country. Our encetors were revered in log capture.

Our ancestors were reared in log cabins, and suffered hardships and trials.

But they lived and enjoyed health to a ripe old age. The women of those days would endure hardship without apparent fatigue that would startle those of the present age.

fatigue that would startle those of the present age.

Why was it?

One of the proprietors of the popular remedy known as Warner's safe cure, has been faithfully investigating the cause, and has called to his aid scientists as well as medical men, impressing upon them the fact that there can not be an effect without a cause. This investigation disclosed the fact that in the olden times simple remedies were adminstered, compounded of herbs and roots, which were gathered and stored in the lofts of the log cabins, and when sickness came on, these remedies from nature's laboratory, were used with the best effects.

what were these remedies? What were What were these remedies? What were they used for? After untiring and diligent search they have obtained the formulas so generally used for various disorders. Now the question is, how will the olden time; preparations affect the people of this age, who have been treated, under modern medical schools and codes, with poisonous and injurious drugs. This test has been carefully pursued, until they are convinced that the preparations they now call Warner's Log Cabin Remedies are what our much abused systems require.

Among them is what is known as Warner's Log Cabin Sarsaparilla, and they

ner's Log Cabin Sarsaparilla, and they frankly announce that they do not consider the Sarsaparilla of so much value in itself as it is in the combination of the various ingredients which together work marvelously upon the system. They also have prepara-tions for other diseases, such as "Warupon the system. They also have preparations for other diseases, such as "Warner's Log Cubin Cough and Consumption
Remedy," "Log Cabin Hops and Buchu
Remedy," "Warner's Log Cabin Scalpine"
for the hair. They have great confidence
that they have a cure for the common disease of catarrh, which they give the name of
"Log Cabin Rose Cream." Also a "Log
Cabin Plaster," which they are confident will
supplant all others, and a Liver Pill, to be supplant all others, and a Liver Pill, to be used separately or in connection with the other remedies.

We hope that the public will not be dis-

appointed in these remedies but will reap a benefit from the investigations, and that the proprietors will not be embarassed in their introduction by dealers trying to sub-stitute remedies that have been so familiar to the shelves of our druggists. This line of remedies will be used instead of others. Insist upon your druggist getting of others. Insist upon your druggist getting them for you if he hasn't them yet in stock, and we feel confident that these new remedies will receive approbation at our readers' hands, as the founders have used every care in their preparation.

Fond of Tragedy.

De Garmo-I am so glad we are to have Booth and Barrett together this year. Are you fond of tragedy, Miss de Peyster?

Cincinnati girl-O, indeed, yes. I go down to pa's abattoir sometimes twice a week.

"There's method in that man's madness" remarked the Superintendent of an Insans Asylum of one of his patients. "How does it show itself?" questioned the visitor. "Why, he always asks for a bottle of Dr. Bull's Cough Syrup—when he has a cold." "Ah! I see."

The Bismarck brown of past seasons is revived under the name of old mahogany. The present may truly be designated

A Remarkable Surgery.

The science of surgery has made such wonderful progress in modern times, that the most intricate and delicate operations are now undertaken and carried to a successful issue. There are now several well authenticated cases of what is known as pneumotony, that is to say, the removal of of diseased portions of the lungs in cases of consumption. While, however, this delicate operation has sometimes been successfully performed, the risks attending it are so great, and the chances of recovery so slight, that it is seldom resorted to. The safest plan in consumptive cases is to use Dr. Pierce's Golden Medical Discovery. This will always cure the disease in its earlier stages, thoroughly arresting the ravages of the terrible nalaby, by removing its cause and healing the lungs. are now undertaken and carried to a suc

"That one struck scenter," remarked the pugilist, as he landed his fist on his opponent's nose.

Heating Trains by Steam.

During the present cold snap, with the thermometer ranging from 12° to 28° below zero, the Chicago, Milwaukee & St. Paul railway has been experimenting with Paul railway has been experimenting with steam heating for passenger trains. The experiments, it is announced to-day, have shown that the system adopted is a perfect success, and, commencing Dec. 1, the through trains between Chicago, St. Paul and Minneapolis, and on the company's other through lines will be equipped as rapidly as possible, with the new steam heating aparatus. The St. Paul read claims the credit of first bringing the matter of steam heating into general notice, and it now has the added honor of being the first Western road to carry its experiments in the matter to a successful issue.—Exchange.

It looks a little singular, but the man who drops dead instantly from sunstroke dies by degrees.

SYMPTOMS OF CATARRIL

Dull, heavy headache, obstruction of the nasal passages, discharges falling from the head into the throat, sometimes profuse, watery, and acrid, at others, thick, tenacious, mucoua purulent, bloody and putrid; the eyes are weak, watery, and inflamed; there is ringing in the ears, deafness, hacking or coughing to clear the throat, expectoration of offensive matter, together with scale from ulcers; the voice is changed and has a nasal twang; the breath is offensive; smell and taste are impaired; there is a sensation of dizziness, with mental depression, a hacking cough and general debility. However, only a few of the above-named symptoms are likely to be present in any one case. Thousands of cases annually, without manifesting half of the above symptoms, result in consumption, and each in the grave. No disease is so common, more deceptive and dangerous, less understood, or more unsuccessfully treated by physicians. By its mild, soothing, and healing properties.
