Everybody's doing it! Doing what?  
Writing Omar—Omar omar to see  
aroma. Everybody's smoking Omar  
to get aroma—the Omar aroma.

An aroma that calls up new fragrance sensations. An aroma that is at once smooth and yet edged—a contenting balance of rich Turkish and ripe accentuating leaves.

Omar—the perfect Turkish blend!  
Even the words blend.

## *We Are Thankful—*

*Under a sense of infinite obligations, we pause for a day to offer thanks to the great Ruler of times, seasons and events, for the uninterrupted prosperity and well-being we have so abundantly enjoyed during the year now nearing its conclusion.*

*While half of the world's population is engaged in war, we are blessed with peace. While thousands of business institutions in other parts of the world have been demoralized, we have prospered, and our future is full of promise and hope. Never have we had so many things to be thankful for.*

*We also take this occasion to proclaim our gratitude to our patrons who have so freely favored us with their patronage during this and previous years. Entrusted with your confidence and good will we shall endeavor not only to maintain but improve our service so that our business relations with you may always be pleasant and satisfactory.*
