This Woman Knew

Last summer a housekeeper we know of canned 85 quarts of tomatoes, 20 pints of chili sauce, 40 pints of green tomato mince meat, 8 quarts of tomatoes for soup, 20 quarts of beets, 28 pints of corn, 30 pints of string beans and 10 pints of pepper hash. She also put down 2 bushels of carrots, 2 bushels of parsnips, and 1 bushel of salsify.

This crop and all the fresh tomatoes, corn, beans, beets, swiss-chard, spinach, peas, cucumbers, onions, peppers, celery, rhubarb, radishes and lettuce that her family of four could eat she grew on two garden patches, one 40 ft. x 45 ft. on the place, the other 25 ft. x 20 ft. on a nearby vacant lot. She succeeded because she knew before she planted that quality and quantity yield depend on seed ancestry.

FERRY'S SEEDS

are pedigreed seeds. They multiply the certainty of first quality vegetables and luxuriant beds of gay flowers because they are the progeny of plants that we know have produced abundantly for many generations. Moreover, each year's crops of Ferry's Seeds are tested by us before we offer them for sale.

Now's the time to plant your garden. Write for the beautiful new 1919 Ferry "Seed Annual," sent free on request. Ferry's Seeds are sold by druggists everywhere.
